FIVE YEAR SERVICE QUALITY IMPROVEMENT PLAN

FCC Mail Room

PREAMBLE

Beehive Telephone Co., Inc., Nevada ("Beehive" or "BTC-NV") has carefully developed its improvement plan, concentrating on the delivery and continuation of a robust network which provides, at a minimum, the federally required voice and broadband connectivity as stipulated by regulatory rule.

Beehive advises that this improvement plan has been carefully developed, matching measured network deployment, improvement and quality service levels with known financial implications of the Transformation Order upon the Company's support levels and cash-flow. The uncertainty of support levels and respective cash flows being received in future years as a result of current and potential regulatory action on rural rate-of-return carriers has resulted in the Company taking a balanced, yet realistic, approach.

The environment in which the Company operates remains dynamic, not static. As a result, Beehive reserves the opportunity to modify its plan in response to changing market demands as well as future regulatory decisions, and their impacts upon the Company's financial viability in providing quality services.

Beehive will re-evaluate this plan on an annual basis. Action, however, may also be taken abruptly on the presented plan for both current and future years in the event of evolving regulatory conditions and/or changes in technology (vendor) driven support. All adjustments to the improvement plan in this document will be reflected and explained in subsequent annual reports.
